

“This Christmas, may your family be functional and all your batteries be included.”

After a tough year, a little humour goes a long way... Wishing you and your loved ones a joyous festive season and a relaxing holiday.

Thank you for your continued support, we look forward to seeing you in the new year!

Giving back

It has been a hard year for many and this year we continue to support a local initiative that is addressing hunger over the festive season. Our food market, Le Bamba, through the Hoedspruit Rotary Club and the Hoedspruit Food Relief Group, is creating and distributing food parcels for the community. We thought this a fantastic initiative! Should you be interested in donating, please contact Iris who is managing the project on behalf of Le Bamba, on +2715 793 2634

Conservation Status

Although the leopard may be widely distributed, they are classified as a vulnerable species. Threats to survival include habitat loss and fragmentation, competition for prey with humans, poisoning and hunting.

According to Wildlife ACT, the leopard is an adaptable, widespread species that nonetheless has many threatened sub-populations. While still numerous and even thriving in some marginal habitats from which other big cats have disappeared in many parts of sub-Saharan Africa, in North Africa leopards are on the verge of extinction.

Leopards are known to be elusive big cats, so when you do get the opportunity to see them in the Klaserie Private Nature Reserve, it truly is a treat! These cats have been wandering around Makumu Private Game Lodge a lot recently and we hope to continue to see these beautiful cats thrive in their natural habitat.
