Recreating the Makumu Magic!

LET'S SHED SOME LIGHT ON THIS LAND...

Out with the old and in with the new. This past month, we've had the opportunity to reshoot incredible content at Makumu Private Game Lodge. It's dry season here in the Klaserie Private Nature Reserve and the temperature has made sightings even easier as the animals gather around predictable water sources. This has made it a truly exciting experience for both the camera crew and the Makumu team. Recreating our Makumu experience has brought us back to why we love the bush life here in the Klaserie Private Nature Reserve...

The resplendent beauty of the open savannah, the vivid shades of colour between seasons, and of course the incredibly diverse wildlife. This is where the magic begins. A world that's purely connected to nature, with the chance to see lions, leopards, elephants, rhinos, cheetahs, and so many more animals in their natural habitat. If you are a lover of wildlife and photography, there is no better way to experience the incredible biodiversity of Africa than a safari through its natural reserves. This is what makes Makumu Private Game Lodge so special.

We offer an authentic, unpredictability and unspoiled appeal of the African bushveld that was created by owner, Stefan Breuer. His dream has lived on and inspired many who have had the opportunity to experience the lodge of 'endless views.' It's what has brought guests back time and time again... Stefan was also featured in the recent Klaserie Chronicle issue for his story titled 'Stefan's Eyes Over Africa' - you can read the article [here!](#)

If you're yet to join us and experience this *Makumu Magic*, then perhaps the launch of our new photography and video will encourage you! Keep reading further below for a few sneak peaks!

Wildlife Update

Welcome back to yet another exciting update on our adventures here in the Klaserie Private Nature Reserve. I will be covering all the thrilling sightings that happened during May.

Leopards:

We were extremely lucky to come across a rare sighting. 4 Leopards and a clan of hyenas. Manzi and her 2 cubs were feeding on an impala carcass which was hoisted up in a tree...

Lion:

Our guests had quite the welcoming. On their way to the lodge from the airport they stumbled upon a heated fight amongst male and female lions around a large giraffe carcass...

Elephant:

The bush has been flourishing due to some late rains we have been blessed with. This provides as a nice feeding source for the large elephant herds as they need to eat a lot for their big body size...

Wild dog:

The one morning we found a large pack of wild dogs trying to take down a blue wildebeest calf...

Buffalo:

Small groups of buffaloes have become quite common around the Klaserie river as it provides great grazing opportunities and a constant source of water throughout most of the year...

Guest Review

A FEW INCREDIBLE REVIEWS FROM RECENT GUESTS THIS PAST MONTH!

Could not ask for a better safari experience

"My wife and I stayed at Makumu for three nights and could not recommend it more. Within 24 hours we had seen the big 5, and each game drive did not disappoint. While a lot of other lodges went out with just a driver on their game drives, each time at Makumu we had both a driver and a tracker, which allowed us to find and see much more. The accommodations were also fantastic. The rooms were large and comfy, and it was a great sharing brunch with the other guests and being able to have a drink in the afternoon while watching animals walk by the lodge. All the staff were extremely hospitable and knowledgeable about wildlife and answered our many questions. The food was delicious and afternoon tea was served prior to the evening drive which was a fun treat to experience."

- Tyler S (Tripadvisor)

Absolutely worth it!

"Should have stayed 4 nights instead of 2. The rooms were incredibly spacious and beautifully decorated. At night the entire lodge is lit up by candle light which is lovely. The place was immaculate with endless views and delicious food. Ruan the ranger, and Richard the tracker were knowledgeable and did a great job tracking lions during our stay. Shelley was a fantastic host and the rest of the staff were very friendly and welcoming."

- Miertjie89 (Tripadvisor)

"Thanks so much for making our honeymoon and anniversary so special. We had such a great time and everyone was wonderful!"

- Chelsea & Daniel from California, USA

COUNTRY TRAVEL REQUIREMENTS

As stated by South African President Cyril Ramaphosa, a negative PCR test will no longer be required for international travelers who are fully vaccinated. This means that travelers are now required to only show a "valid vaccination certificate" upon entry into the country. Unvaccinated travelers can continue to enter the country after presenting a negative PCR test.

South Africa is currently on "Alert Level 1", which is the lowest level in the country, finally making traveling around the country a smooth and easy process so you can enjoy your stay!

With these requirements in place, Makumu Private Game Lodge still uses 'COVID Best Practice Guidelines' for safety measures to protect our guests at all costs.

Stay safe + healthy.

The whole team is looking forward to
welcoming you to Makumu Private
